## Adams Families Craving Concessions Fundraiser

Adams Athletic Boosters raises over \$40,000/year that is used to help our athletic teams be successful. At some point during every student athletes time at Adams HS one of their teams will most likely need financial assistance from Athletic Boosters.

This year every child has been impacted with uncontrollable circumstances . . . Battling through COVID, delayed or modified sports, and the social isolation that many have felt without their regular activities both in and outside of the competitive athletic platform.

The ability to raise funds that will assist our athletic teams has been significantly impacted during the 2020/2021 year. We are asking for support from our families and community so that we can continue to support the athletic programs at Adams HS.

Funds are tight for many in our community but we are going to ask that if you have the ability to donate what you would normally spend at the concession stands during the sports seasons it would be greatly appreciated. If you don't use the concession stands maybe consider donating what you would spend on a fast food meal or a cup of coffee.

As a community we have come together and realize that we truly appreciate the things we took for granted for so many years - seeing kids in every sport flourish as part of a team is one of them.

Thank you again for supporting our athletes at Adams HS!!
